

# COI Species Report

---

**Cell line:** TN-368

**ACC-No.:** 177

**Date of analysis:** 13.10.2014

**DNA processing number:**

**Method:** DNA Barcoding by PCR amplification of 5' coding region of cytochrome c oxidase I (658 bp fragment size). Cycle sequencing of respective PCR products revealed following assignment upon submission to BOLD (Ratnasingham, S., Hebert, P. D. N. (2007) BOLD: The Barcode of Life Data System ([www.Barcodinglife.org](http://www.Barcodinglife.org)). Molecular Ecology Notes, 2007; 7(3): 355-364

Taxonomic Level Taxon Assignment Probability of Placement (%)

Phylum Arthropoda 100  
Class Insecta 100  
Order Lepidoptera 100  
Family Noctuidae 100  
Genus *Trichoplusia* 100  
Species *Trichoplusia ni* 100

## Identification Summary:

**Search Result:** The submitted sequence has been matched to ***Trichoplusia ni***. This identification is solid unless there is a very closely allied congeneric species that has not yet been analyzed. Such cases are rare.
